***The Support You Need ... Always Within Reach***

To survive and thrive in this economy, your MEDRAD<sup>®</sup> products must operate efficiently. There's no time for downtime.

Now with VirtualCARE<sup>®</sup> Remote Support, we can remotely diagnose the problem, develop the solution and complete the recovery plan fast ... to keep you on schedule ... and keep your patients satisfied!

That's because with VirtualCARE:

- ✓ Software issues can be resolved remotely, often within minutes rather than hours, because travel time is eliminated.
- ✓ Hardware can be repaired in one trip, because we arrive with the right parts in hand, the first time.

So, you're back up and running ***FASTER!***

***VirtualCARE<sup>®</sup>...Virtually there, for you.***

Available on Stellant<sup>®</sup> CT Injection System, Spectris Solaris<sup>®</sup> EP MR Injection System, Avanta<sup>™</sup> Fluid Management System, Certegra<sup>™</sup> Informatics Platform and the Intego<sup>™</sup> PET Infusion System
