

MEDRAD offers the best Predictive Maintenance. *Guaranteed!*

MEDRAD Predictive
Maintenance (PM)

The most comprehensive
service plan on the market today.

MEDRAD Selected
2008 Service Leader
of the Year by
Worldwide Business
Research

**Put your Trust in MEDRAD, who has been
providing Service for over 40 years.**

Your PM should maximize safety and product
performance, and extend the life of your equipment.
The MEDRAD PM does!

Can your current service provider...

- Insure Uptime and Deliver Consistent Service?**

MEDRAD DOES...

- MEDRAD analyzes historical data to proactively replace parts to insure greater uptime and product reliability.
- We install proprietary software and hardware updates designed and identified by MEDRAD in order to enhance product performance.
- MEDRAD can provide, software and hardware upgrades to new product platforms.
- OEM Standardized PM kits and procedures are used by every MEDRAD Service Engineer to maximize the quality and consistency of the MEDRAD PM.
- MEDRAD pricing includes all travel, labor and parts, no hidden costs.
- MEDRAD provides mobile inventory.
- MEDRAD provides quality controlled inventory to maximize product reliability.

- Provide a Factory trained/ Certified Engineer?**

MEDRAD DOES...

- All MEDRAD field engineers specialize in PMs and emergency service calls.
- All field engineers are factory trained and fully OEM certified.
- MEDRAD field engineers can provide valid certificate of insurance.
- MEDRAD field engineers use factory approved and calibrated test equipment.
- All work performed is warranty protected.
- MEDRAD field engineers are consultative and will work with you to meet your service goals.

- Offer Full Recalibration at time of PM on your newer equipment?**

Only from MEDRAD!

- Our team recalibrates your unit to OEM standards.

- Provide Inspections/Safety Testing?**

MEDRAD DOES...

- MEDRAD inspects head mounting system, including Overhead Counterpoise System (OCS).
- MEDRAD tests all safety features of MEDRAD systems.

Price is simply not the only factor to consider.

How important are the factors below to your facility?

- Patient Safety
